

Active Directory User Sync

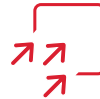

Elevate Your User Management

The Active Directory User Sync allows users to manage users and their access roles all in one place. Built to support medium to large-sized pricing teams, this product allows IT and Pricing Management to keep their ProPricer user list synced with their Windows Active Directory users.

Labor-Saving

Optimize User Permissions
in Multiple Environments

Easy
Management

Benefits

- **Improve Security**
As users' roles change, be assured your team has the most up-to-date permissions in ProPricer. Hire a new employee? Someone leaves the company? No need to stress, as the Windows Active Directory is updated, so is ProPricer.
- **Streamline Your Process**
Manage users in one place and easily sync your entire ProPricer user list, with appropriate permissions, with a few mouse clicks.

Integrations with:

- ProPricer Contractor Edition - Enterprise
- ProPricer Contractor Edition - Essentials
- ProPricer Government Edition
